Golden Dawn is a neo-Nazi paramilitary party with a long and brutal history of violence and terror in Greece.

For decades, Golden Dawn has operated on the fringes of the far-right, as a small, fascist sect; however, in the past year, they have opportunistically exploited the current economic crisis in Greece to enter mainstream electoral politics. New found State-funding and a false sense of legitimacy has enabled them to further their neo-Nazi agenda and expand their campaign of terror. As result of these new political connections, they have murdered without repercussion and are now exporting their fascism internationally.

Today, masquerading as a humanitarian organization, Golden Dawn is attempting to open a chapter here in Astoria, Queens. Don't be taken in by their lies - *any* donation handed over to Golden Dawn will inevitably assist them in continuing their murderous neo-Nazi violence.

Following in the long tradition of militant antifascism, we will not allow Golden Dawn or any neo-Nazis to gain a foothold in New York!

They Shall Not Pass!
